

## RD1100 & RD1500

### Ground Penetrating Radar

#### RD1100

The RD1100 provides locates professionals, surveyors and other users with the tool they need to trace and mark the position of all types of cable and pipe, including plastic and ceramic. Built in as standard is the ability to take screenshots which are saved to

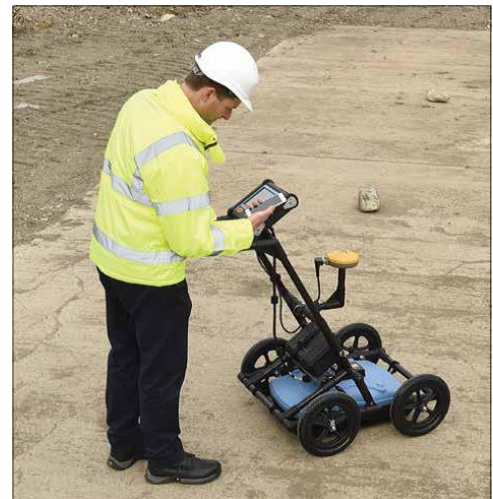

internal memory for immediate emailing via Wi-Fi or later export to a USB memory stick. GPS positioning is captured for integration into Google Earth.

#### RD1500

The RD1500 takes utility locating to the next level, offering users easily interpreted Depth Slices as well as traditional Line Views.

Use proprietary **FrequenSee** technology to highlight small/shallow, medium or large/deep buried utilities.

Enhance the RD1500 with software to export GPR data and perform detailed analysis, and with external GPS for higher positional accuracy

#### RD1100 Ground Penetrating Radar

Price: \$22,710.00

#### RD1500 Ground Penetrating Radar

Price: \$32,100.00

Prices do not include GST
